

INSTITUT INTERNATIONAL DU FROID  
INTERNATIONAL INSTITUTE OF REFRIGERATION

# IIR AT COP13/MOP36\*

28 OCTOBER - 1 NOVEMBER 2024

Bangkok, Thailand

## SUSTAINABLE REFRIGERATION AND HEAT PUMPS FOR ALL

IIR is an independent intergovernmental organisation that encourages collaboration and enhances knowledge on all aspects of refrigeration and heat pump technologies and their applications in order to contribute to a sustainable future.

+400 experts worldwide

59 member countries

+950 individual  
& corporate members

## IIR EVENTS

### IIR & Cool Up – Advancing Energy Efficiency: Innovative Refrigeration and Cooling Solutions for a Sustainable Future

**28 October, 13:00-15:00 | Room CR-3**

This event will highlight opportunities from improving energy-efficiency in the cooling sector, share valuable policy best practices, and emphasise the crucial role that energy efficiency and technological progress play in lowering cooling energy demand and reducing both direct and indirect greenhouse gas emissions. You'll also discover financing mechanisms that support energy-efficient cooling and explore how to scale-up opportunities for greater energy efficiency.

*With Yosr Allouche (IIR), Marco Buoni (AREA), Marco Duran (IIR), Souhir Hammami (IIR), Jakob Hoffmann (Cool Up), Isroiljon Khasanov (Cool Up), Björn Palm (KTH Sweden/IIR), Andrea Voigt (Danfoss Climate Solutions Leadership Team), Hubert Zan (Ghana Energy Commission)*

### IIR – Overcoming Barriers to Natural Refrigerant Adoption in Emerging and Developing Countries

**30 October, 18:00-20:00 | Room CR-3**

This event will explore the opportunities and challenges for the adoption of natural refrigerants in emerging and developing economies from country representatives and experts. Including current policies and regulations, highlighting the hurdles faced by the industry and governments, and providing insights to overcome them. Learn about regulatory frameworks, technological advancements, and opportunities to leapfrog toward environmentally-friendly refrigerant-based solutions.

*With Yosr Allouche (IIR), Daniel Colbourne (Re-phridgel IIR), Baba Dramé (Directorate of the Environment and Classified Establishments, Senegal), Marco Duran (IIR), Sonal Kumar (Council on Energy, Environment and Water), Santosh Kumar Saini (Alliance for an Energy-Efficient Economy), Ellen Michel (Proklima GIZ), Björn Palm (KTH Sweden/IIR), Bitul Zulhasini (Sub-Directorate for Ozone Depletion Substances Control, Indonesia)*

\*13th Meeting of the Conference of the Parties to the Vienna Convention for the Protection of the Ozone Layer (COP13) and the 36th Meeting of the Parties to the Montreal Protocol on Substances that Deplete the Ozone Layer (MOP36)

**Connect with the IIR delegation to network  
and explore opportunities to collaborate!**
